Penina Taylor

Nofei Aviv

Beit Shemesh, ISRAEL

Dear Penina:

Please accept my apologies for this long overdue letter of heartfelt thanks however, I've been reading your book (have read it twice already) and just couldn't bring the pen to paper. That said, there aren't enough words that can express the gratitude and appreciation that we have for your inspirational and dynamic talks that you brought to our community this past November.

Your way with words, both written and orally certainly have left us with a tremendous desire to follow you through the rest of the road in your life and to do what we can to welcome others.

You left the membership of all ages truly inspired through your enlightening talks. You truly serve as a motivator for any group seeking or desiring such a speaker. I would highly recommend you to any congregation, organization or school looking for a dynamic and inspirational speaker of the highest caliber and if they should have any questions should feel free to contact me.

Until we meet again, I wish you the warmest personal regards and thank you very much once again.

Sincerely,

Stuart Katz
